Important Update About HST

Beginning
December 1, 2026

there is a change in how some physicians remit HST.

Each physician's practice is registered separately for tax purposes. Some physicians are **required** to collect and remit HST on applicable uninsured or third-party services, while **others are not.**

Therefore, the total amount charged may differ slightly between physicians.

If you have any questions, please feel free to see our accounts team or visit our website at
